

“An Introduction to Free and Open Source Software”

To be held at the Boonton Holmes Library at 6:30 on Tuesday the 20th.

We'll spend an hour going through the following: A quick demonstration of some applications for Windows, OpenOffice.org, and The GNU Image Maipulation Program. Then we'll take a look at Linux, a free operating system, as well as a quick overview of some applications available for Linux. This will be followed by a question and answer session.

The NJ Linux user's group is proud to present this program
Updates and more details can be found at <http://njlinux.org>
Email questions can be addressed to [linux @ murph.info](mailto:linux@murph.info).
