

Software Freedom Day (SFD) is a worldwide celebration of Free and Open Source Software (FOSS). Our goal in this celebration is to educate the worldwide public about the benefits of using high quality FOSS in education, in government, at home, and in business -- in short, everywhere! The non-profit organization Software Freedom International coordinates SFD at a global level, providing support, giveaways and a point of collaboration, but volunteer teams around the world organize the local SFD events to impact their own communities.

*Free and Open Source  
Software!*

*Morris County Library*

*Saturday September 18th*

The New Jersey Linux User's group would like to present our presentation for Software Freedom Day.

We will demonstrate GNU/Linux as well as Free Software applications, talk about how you can use Free Software, as well as answering questions about Free Software.

We are meeting at the Morris County Public Library at 2:30pm on Saturday the 18th. The library is located at East Hanover Ave. in Whippany NJ, more information about the library can be found at [www.mclib.info](http://www.mclib.info).

We will also be giving away copies of GNU/Linux such as Fedora and Ubuntu.
